However I would like to share few improvement ideas for you: - In the construction outside, the hatches should be self-closing as they are normally in wind turbines. - Please make a TV screen in the lobby showing the training schedule and classrooms for each group on current day. - During WAH course we were storing harnesses on the floor in big hall. I think it could be good idea to build some kind of hanger for harness over night, maybe with wheels so that you can move it 4 everywhere you want.		5	5 To be honest I didn't expect this kind of great quality, 5/5 points!
